Powering Indonesia's Energy Transition

Company Introduction

Revision: 25
Date: 18.09.2026

***“We believe that careful preparation is the best guarantee
for successful project implementation”***

PT GRAHA USAHA TEKNIK is an Indonesian private equity firm, provides professional project management and implementation services in Engineering, Procurement, Construction and Maintenance for Industrial, Infrastructure and Energy in:

- Electrical
- Instrumentation
- Mechanical
- Civil

Customer satisfaction is our foremost objective in every undertaking. We take full responsibility for everything that we do. Our operations are based on the principle of continuous improvement.

We believe that careful preparation is the best guarantee for successful project implementation. Our staff of highly motivated professionals serves our clients, adding value to the project and improving the efficiency and economy of the projects' implementation.

PT GRAHA USAHA TEKNIK is controlled by an extensively experienced management team with minimum 15 years of experience handling electrical, instrumentation, and mechanical and civil project, both of engineering & construction phase.

The quality of our services stems from our ability to fulfill and exceed our client's expectations, with high regard for health, safety, and the environment.

Address:

Jl. Asem Baris Raya No.100A

From the Founder

The idea to set up this company was to provide jobs for young Indonesians and a chance to develop and improve their skill besides making benefit to the company.

Four (4) years working in Government Institution and thirty-two (32) years working in an International Company, PT Siemens Indonesia, encouraged me to set up **PT GRAHA USAHA TEKNIK**, the place for young professionals to express their capabilities and pride. "QUALITY IN EVERY ASPECT" is our motto in developing this company. Experience tell us that with smart and hard work, loyalty and mutual understanding together with the full support from experienced shareholders will help us step by step to reach the company's vision "**To become a world class EPC (Engineering, Procurement, Construction) and Maintenance company in the field of Electrical and Instrumentation**".

PT Siemens Indonesia, as a worldwide company has given us trusted to execute electrical, instrumentation and telecommunication project in many numerous industries with high quality standard and commitment.

Learning from our valuable experience, we strongly believe we can cooperate with you to deliver best performance to your satisfaction and our mutual benefit.

Jakarta, March 2005

Founder,

Hidayatullah

Occupational Health, Safety and Environment Policy

PT Graha Usaha Teknik is committed to being an engineering & construction company leader in conducting our business responsibly so that we protect our employees, customers, supplier, sub- contractors, and other interested parties. Our Occupational Health, Safety & Environment (OHSE) commitment is a core value of the corporation and an integral part of our business activities.

Our Quality and OHS Policies

1. Meet customer requirements and comply with laws and regulations and other requirements related to quality, occupational safety and health (OSH), the environment, and climate change action.
2. Increase customer satisfaction and that of all stakeholders in the implementation of the Integrated Management Systems (IMS).
3. Provide safe and healthy working conditions to prevent workplace accidents, injuries, and occupational diseases.
4. Implement communication, participation, and consultation with workers in hazard control, environmental protection, and pollution prevention activities.
5. Identify risks and opportunities, OSH hazards, and environmental aspects, and eliminate hazard sources and reduce risks related to quality, OSH, and environmental impacts.
6. Implement hazard control, environmental protection, and pollution prevention activities.
7. Conduct periodic reviews of the IMS and strive for continuous improvement

Certified Management System

ISO 9001:2015

To achieve our goal delivering the best quality to our customer, PT Graha Usaha Teknik follows the most widely and internationally recognized ISO 9001:2015 as a Quality Management System Standard.

We proudly announce that PT Graha Usaha Teknik has ISO 9001:2015 certified on Aug 2018 with registration no: **422970 QM15**

ISO 45001 : 2018

To create the safe and healthy working environment, eliminate or minimize risk to employees and other interested parties.

PT Graha Usaha Teknik has passed the ISO 45001 : 2018 certification on August 2020 with registration no: **422970 OHS18**

SMK3 Certificate

To create the safe and healthy working environment, eliminate or minimize risk to employees and other interested parties.

PT Graha Usaha Teknik has passed the Certificate of Appreciation in Implemented of Occupational Safety and Health Management System on July 2018.

Certificate of Registration

This is to certify that Anti-Bribery Management System of

PT GRAHA USAHA TEKNIK

Gedung Office 8 Level 18-A SCBD, Jl. Jend. Sudirman K.v. 52-53,
Desa/Kelurahan Senayan, Kec. Kebayoran Baru, Kota Adm. Jakarta
Selatan, Provinsi DKI Jakarta, Kode Pos: 12190 - Indonesia

is in accordance with the requirements of the following standard

ISO 37001:2016

(Anti-Bribery Management System)

SCOPE

EPC (Engineering, Procurement, Construction), Commissioning, and
Maintenance for Electrical and Instrumentation

Certificate Number : SCK/19/PTG/25/62/5904

Business Information

IndoInfo Rating & Composite Risk			
i Rating	BM2		
Financial Strength	BM	Based on tangible net worth of IDR 35,000,000,000 to IDR 99,999,999,999	
Composite Risk	2	Low risk	
iScore	80.200		
iCredit Limit Reference	IDR 20,000,000,000		
iFinancial Capability	IDR 292,752,078,384		
Litigation, Blacklist flag	3case(s), No Flag		

IndoInfo Rating Guide

IndoInfo Rating consist of various 2 parts, the Financial Strength and the Composite Risk. Financial Strength is an indication of tangible network. The Composite Risk is calculated by taking into account various parameters covering financial conditions, company score, litigation, government blacklist check, credit limit size, etc.

D&B Rating & Indicator **

D&B Rating	4A2
Financial Strength	4A
Based on tangible net worth of IDR 18,000,000,000 to IDR 84,999,999,999	
Risk Definition	2
Good capacity for meeting payment liabilities	
DUNS Number	726507242

D&B Rating Guide

D&B rating consist of 2 parts, the Financial Strength and the Risk Indicator. Financial Strength is an indication of tangible network. The Risk Indicator is linked to the level of risk. It takes into account the financial condition and several factors such as trade reference, history, legal structure, management experience, etc.

**D&B Rating & Indicator is supplied by D&B Indonesia

Capabilities

Engineering, Procurement, Construction and Commissioning

1. Turn Key / EPC Electrical System, LV, MV and HV up to 150kV Substation.
2. Turn Key / EPC 70kV and 150kV Transmission Line including civil work.
3. Construction up to Commissioning of Electrical Work for Low Voltage Medium Voltage and High Voltage up to 500kV

Maintenance Services

We provide regular maintenance of electrical & instrument equipments during minor and major maintenance / inspection for several power plant in Indonesia:

1. North Duri Cogeneration Plant, MCTN / Chevron, Riau 3 x 125 MW
2. Muara Tawar Combine Cycle Power Plant, unit 3.1; 3.2; 3.3; 4.1; 4.2; 4.3
3. PAITON CFPP East Java, Unit 3, 5, 6, 7 & 8 by POMI and YTL Jawa Power
4. Cirebon Power Unit 1 (660 MW)
5. Tanjung Jati B, Unit 3
6. Dian Swastika Sentosa Grup (Sinarmas)
 - DSSP Power Sumsel (2x100MW)
 - DSSP Power SKS Kalimantan (Kalteng-1 2x100MW)
7. Lebak Banten Energi, CFPP 660MW Merak, Suralaya Banten
8. PLTU Keban Agung, Lahat Sumatera, PT Priamanaya Energi

Project Construction

1. Construction and Commissioning
 - Low and Medium Voltage Switchgear
 - Power transformers (casting resin + oil insulated)
 - Isolated Phase Busduct for GSUT
 - Relay Protection, Control Panel and SAS
 - HV Transmission Line (70kV, 150kV) and MV Distribution Line
 - Switchyard High Voltage Switchgear (70kV, 150kV, 275kV and 500kV):
 - Switchyard Air Insulated Switchgear (AIS)
 - Switchyard Gas Insulated Switchgear (GIS)
2. Construction or supervision for all Electrical and Instrumentation Installation.
3. Individual Instruments Calibration (bench and field)
4. Pre-Commissioning for instrumentation.
5. Providing Technical and Non-Technical Personnel

Construction Management

Construction Management Services ability and operability are designed into each of PT GRAHA USAHA TEKNIK contracts consistent with the scope, size, and complexity of the particular project.

Human Resources

The company offers to provide personnel to clients in the following ways:

1. Daily or Monthly Rate Basis.
2. Lump Sum for execution of particular scope of work.
3. Management fee for technical and non-technical personnel utilization

SF6 Gas Handling & Treatment Machine Set

No	Description	Brand / Type	Capabilities
1	Service Chart (SF 6 - Gas Handling Devices and Units)	DILO Type L057R01, Economy Series	a. Handling SF6 Gas with safety as per international regulation. b. Recovery (final vacuum of < 1 mbar) and putting into storage of SF6-gas from gas compartments. c. The gas compartment can be flooded with air, evacuated and filled with SF6 – gas. d. SF6 Gas purifying (during recovery & filling), effectively adsorb decomposition products and moisture.
2	SF 6 - Gas Storage Tank / Liquid	DILO Type B044R12, Capacity 600 Liter	a. The pressure vessels are produced and approved in accordance with the corresponding regulations. (e.g. 97/23 EC). b. The capacity up to 600 liter with 71 bar max. pressure. c. Can store the SF6-gas in gaseous form or at higher pressure in liquid form.
3	SF6 Multi Analyser (with gas return system) 2 units	WIKA-GA11 And RA-912F	a. The SF6 Multi Analyser allows to determine the three most important parameters for reuse of SF6-gas with only one measurement: i. SF6 concentration [%] ii. Moisture concentration (dew point) in degree Celsius. iii. SO2 concentration [ppmV] b. Automatically pumping the analyzed gas into the compartment (no need external storage).
4	Filter unit	DILO Type B071R11	a. Portable separating filter unit (pe 25 bar) b. For adsorption of oil-aerosols, moisture and gaseous or dusty decomposition products.
5	Vacuum Pump Unit	DILO B046R20	This DILO vacuum pump unit is “powerful“- its nominal suction capacity is 200 m³/h at 50 Hz for quick and reliable evacuation of air to a final vacuum of 1 mbar
6	Leak Detector	DILO 3-033-R002	2000000971
7	Leak Pointer	DILO 3-033-R002	2000001074

Civil Capabilities

In line with PT Graha Usaha Teknik progress and experience in doing electrical projects, mainly Substation and Transmission Line, the capability of handling civil work is a must as in the build a control building, concrete foundations, cable duct, and many other civil works. Therefore, the management of PT Graha Usaha Teknik believes that it is necessary to include civil works as a company capabilities improvement program.

In 2011, we started our very first civil work project of 70kV & 150kV Remote Substation Construction in Turn Key Basis - EPCC (Engineering, Procurement, Construction and Commissioning) scheme; a project entrusted by PT. Makmur Sejahtera Wisesa (Adaro Group).

In this project, the civil work is EPC scheme. The engineering phase started from topography survey, soil investigation, design, until foundation calculation and so on, while in the construction phase, we do all the work ourselves; from land clearing and earth moving work around 25,000 cubic meters, digging, form work designing until concreting foundations as well as construct the cable duct, drainage, and build supporting buildings and warehouse.

Based on the success of the above EPC Civil project, we continue our work in several projects. To date, we have been working in several civil works namely the civil engineering projects for 150kV Kota Agung Substation in Lampung – Sumatera in associate with Semangka Hydro Power Plant; Coal Shed & Ground Hopper Shed (EPC) construction project for the 2x35MW power plant of Adaro Group in South Kalimantan. We also awarded by Hyundai Engineering Co Ltd for the civil works in KALSEL1 2x100MW Coal Fire Power Plant project, owned by PT Tanjung Power Indonesia (Adaro Group and EWP Korea) for 150kV Double Circuit Transmission Line of 5 km length, as well as 150kV substation consisting of 7 bays with Turn Key project.

Civil Works Capabilities

1. Preliminary Engineering

1. Topography Survey
2. Soil Investigation (CPT, SPT, Plate Load Test)

2. Engineering

1. Loading Data
2. Foundation Calculation
3. Design Foundation
4. Anchoring Calculation
5. Design Control Building
6. Warehouse

3. Construction

1. Power Transformer Foundation and Fire Wall
2. 150kV HV Equipment Foundation
3. 150kV Gantry Tower Foundation
4. 150kV Cable Duct Substation
5. 150kV Transmission Tower Foundation
6. Land Clearing of ROW (Right of Way) for Transmission Line
7. Access Road as per PLN (owner) Standard
8. Fence, Drainage and Landscaping
9. Control building

4. Method Statement

1. Clearing and Grubbing
2. Excavation and Back filling
3. Steel Reinforcement
4. Job Mix Design for Civil
5. Foundation Work
6. Anchor Bolt Installation

Mechanical Capabilities

In mid-2009, with a growing our business and capabilities, and for more focus on demand and customer satisfaction, the mechanical division was formed, which is integrated with the other divisions.

Mechanical Division is supported by experts who have minimum 10 years experience, dedicated and committed to achieving customer satisfaction. Currently this division specializes in Maintenance and Repair Valves (Hand, Control, and Safety) and Diesel Engine Generators.

Diesel Generator Engine Recondition

We specialized in the reconditioning of diesel engine generators. We also make the components of diesel generator engines, such as: cylinder liner, cylinder head, exhaust manifolds, heat exchangers, and other components at competitive prices.

In our experience, diesel generator engines which we have repair and reconditioning, including:

- MAK 8M 453
- DEUTZ MWM TBD 232 V12
- DEUTZ F 10L
- MIRRLESS
- COCKERILL
- Provide components, such as: Flexible for Exhaust, liner, exhaust manifolds and other components for all types of diesel engine generators.

Valve Repair

Repair all brand and common size of valves (1" up to 24") with International Standard (API, ANSI, JIS)

- Hand Valve : Gate valve, Check valve, Ball valve, Globe valve, Plug valve, Butterfly valve
- Safety Valve : Vacuum valve, Pressure Safety valve, Pressure Relief valve, Pilot valve
- Control Valve : Actuator, Controller, Positioner (Pneumatic, Hydraulic, and Electric)
- Online Repair
- In-situ Repair
- Online Leak Sealing
